Sprint Report 4 - 05.02.2024 - Group 05   Ålesund, 05.02.2024

In attendance:
Håkon Svensen Karlsen, Matti Kjellstadli, Adrian Johansen & Di Xie

Time and place: Monday 05.02 at 12:00 - 14:00. Room: D410

Case 01:
Last weeks work will be continued on for this week:

We want to complete the first proper prototype in Figma next week. This includes all originally planned web pages (Home page, Account page, Course overview, Mobile versions, About us). We also want to have the first edition of the database schema, design guidelines, use-case diagrams, and a basic REST API.

This is how the work will be delegated:

Adrian: Handles the basic version of the REST API, Teaches the rest of the group after the fact
Di: Handles the database schema
Håkon: Handles the design guidelines, Some figma and the use-case diagram
Matti: Finishes the first design prototype in addition dato the use-case diagram
